

*Introducing  
MS Office 2010 and  
Windows 7*

## Successful businesses move at the speed of thought.

Research shows that organizations waste up to \$14,000 per knowledge worker each year because those workers are unable to find information and need to recreate existing data.<sup>1</sup> The money you save with a better management system could go a long way in the current economy. Don't miss this opportunity to meet other local business people, share experiences, and find out how **MS Office 2010**, **Windows 7** and an integrated suite of business productivity and management solutions can drive your company forward. We'll demonstrate how you can:

- Empower your team to make better decisions and adapt quickly
- Standardize and streamline your workflow processes
- Get centralized views of all service requests, customer history, and calendars
- Enable your team members to customize their tools to suit their own work styles

Please join us! Go to RAMAC to register today.
